Rey Buban

AI Developer & Full-Stack Software Engineer

Philippines LinkedIn Facebook Instagram Portfolio Website

PROFESSIONAL SUMMARY

Results-driven and innovative AI & Full-Stack Developer passionate about artificial intelligence, conversational agents, and robust web applications. Experienced across the complete software engineering lifecycle with proven expertise in building e-commerce intelligent semantic search engines, multi-channel conversational chatbots, and automated biometric eKYC identity verification systems. Highly skilled in Python, Laravel, Vue.js, PHP, MySQL, and modern AI API integrations.

WORK EXPERIENCE

AI Developer / Full-Stack Engineer — Synermaxx Corporation `Jan 22, 2025 - Present`

- Full-time AI developer architecting and deploying corporate artificial intelligence tools, chatbots, and identity solutions.
- Recognized with the prestigious **Rookie of the Year 2025** award for outstanding innovation, rapid execution, and technical excellence.
- Developed and scaled secure RESTful web APIs using Laravel and Python with optimized MySQL database queries.
- Integrated real-time natural language processing (NLP) pipelines and smart biometric verification features.

Software Development Intern — On-the-Job Training (OJT) `Completed 3 Months (9 hrs/day)`

- Completed an intensive 9-hour daily internship focused on modern full-stack web architectures and database management.
- Collaborated on real-world web applications using PHP, JavaScript, and responsive UI components.

KEY FEATURED PROJECTS

Maxx AI Chatbot Systems

`AI CHATBOT · PYTHON · LARAVEL`

Suite of intelligent conversational chatbots (Apps 130, 119, 89, 110) featuring real-time natural language intent recognition, voice synthesis, and multi-tenant customer support automation.

Maxx eKYC Identity Verification

`IDENTITY VERIFICATION · AI · BIOMETRICS`

Automated eKYC system (App 133) delivering digital identity verification, secure ID card scanning, biometric facial matching, and real-time fraud mitigation.

E-Commerce AI Search System

`E-COMMERCE AI · FULL-STACK WEB`

Machine learning assisted product search and catalog platform (App 123) with real-time semantic query matching, dynamic categorization, and conversion optimization.

Interactive AI Developer Portfolio

`LARAVEL · 3D VECTOR MOTION · UI/UX`

High-performance personal web terminal featuring interactive AI chatbot integration, 3D CSS/SVG animations, dynamic seasonal calendar engines, and zero-latency dark/light mode.

TECHNICAL SKILLS

PROGRAMMING LANGUAGES

`Python` `PHP` `JavaScript (ES6+)` `Visual Basic`

FRAMEWORKS & WEB TECH

`Laravel` `Vue.js` `HTML5` `CSS3 / Tailwind` `RESTful APIs`

DATABASES & TOOLS

`MySQL` `XAMPP` `Git / GitHub` `AI Models / LLMs` `eKYC & Chatbots`

EDUCATION & HONORS

Bachelor of Science in Information Technology (BSIT)
Gardner College Diliman — Graduated

Senior High School — ICT Strand
Electron College — Graduated

Secondary Education
New Era High School — Graduated

Primary Education
New Era Elementary School — Graduated

🏆 **Rookie of the Year 2025** — Synermaxx Corporation

🎓 **Certified Master of AI Chatbot**
